

CLIMATE CHANGE AND SUSTAINABILITY: LEVERAGING CARBON MARKET INITIATIVES FOR BUSINESS

LEADERSHIP

DURATION

3 Days

FEES

S\$4,350.00* excluding GST S
\$4,741.50 with GST⁺

LEADERSHIP LEVEL

Mid to Senior Management

OVERVIEW

Sustainability and climate change are now issues that are moving beyond corporate lip service into real world business costs, challenges, and opportunities.

Leaders and managers with some familiarity on climate change would know of the Kyoto Protocol and the Paris Agreement. However, the details and business implications of these treaties may not be well understood by non-specialists.

Many corporates have set climate-neutrality / net-zero targets and will have to decide a pathway towards net-zero. In practice, corporates will need to make step-by-step decisions on the breadth and depth of their greenhouse gas emission reductions (direct, and indirect). They will also need to decide on the role of carbon credits in their transition period, and in their steady state (i.e. offsetting non-abatable emissions in the long-run).

This programme breaks down the issues, and will help participants to understand and to take advantage of climate change opportunities today, and in the near future.

CORE FOCUS

Basics of Climate Change, Policies & Frameworks

- Understanding Climate Change
- Politics & Economics of Climate Change
- UN Climate Framework
- Climate Policy Instruments

Corporate DeCarbonisation Strategies

- Fundamentals of Net Zero
- Role of Verified Carbon Credits (VCCs)
- VCC Overview & UN Legal Framework
- Responsible Use of VCCs

High-quality credits and markets. Getting to Net Zero

- Generating VCCs in the Real World
- Deep Dives into the Quality of VCCs
- From Project Quality to Price Signals
- Connecting the Dots

KEY BENEFITS

Making sense of the Global Carbon Market. This programme will equip participants to:

- Understand the strategic business opportunities of a global carbon market
- Leverage the global carbon market to help achieve climate goals in the public and private sectors

WHO SHOULD ATTEND

- Chief sustainability officers and Chief financial officers (for ESG reporting)
- Procurement professionals (of VCCs and related products)
- In-house project developers
- Private equity and other finance professionals (looking to invest in VCCs)
- Lawyers, accountants and other service professionals focusing on Environment, Social and Governance issues (ESG)
- Risk management officers
- Public policymakers (to understand voluntary markets and possible overlaps with compulsory markets)

PROGRAMME CO-CHAIRS

KOH LIAN PIN

Associate Vice President and Chief Sustainability Scientist; Director, Centre for Nature-based Climate Solutions (CNCS); Professor of Biological Sciences, School of Science

MIKKEL LARSEN

CEO, Climate Impact X (CIX)

PROGRAMME DIRECTOR

LAWRENCE LOH

Deputy Head of Department; Professor, Strategy & Policy; Director, Centre for Governance and Sustainability

NUS TEACHING FACULTY

JOHAN SULAEMAN

Associate Professor, Dean's Chair and Director of SGFIN

JOLENE LIN

Associate Professor and Director, Asia-Pacific Centre for Environmental Law

EXPERT SPEAKERS

MICHAEL BLANDING

Global Head of Sustainability and Impact Investment, Berge Bulk

STEPHAN BOGNER

Director of Sustainability Asia for Wildlife Works Carbon (WWC)

JEFFREY DELMON

Senior Infrastructure Finance Specialist, World Bank

OWEN HEWLETT

Chief Technical Officer, The Gold Standard Foundation

PAMELA MAR

Managing Director, Digital Standards Initiative (DSI) of the International Chamber of Commerce (ICC)

ANSHARI RAHMAN

Vice President at GenZero, Strategy & Development Group

PAST PARTICIPANTS INCLUDE

- Board Director, CEO, COO
- Vice President
- Carbon and BioFuels Trader
- Carbon Trading Manager
- Head of Structuring & Distribution Director
- Director HR & Group ESG Officer
- Founder & Managing
- General Manager
- Head of Accounting, Head of Operations
- Low Carbon Energy Development Manager
- Carbon Management Team
- Public and Government Affairs Manager
- Singapore Environmental and Regulatory Manager
- Senior Manager, Global Energy

TESTIMONIALS

"The program really gives me the necessary understanding/foundation to navigate in this new and ever changing market."

Praditya Satria Putra

Head of CEO Office, PT Medco Power, Indonesia

"Great course to learn about the most advanced practices in a fast moving and uncertain world of carbon market."

Ryo Tateishi

Manager, Corporate Sustainability & CSR Dept, Mitsubishi Corp

"Very informative and well-designed training. Just in time with the right depth of knowledge. Learned a lot. Thanks for the networking opportunity too."

Zhang Xiao Hui

Environmental and Regulatory Manager, ExxonMobil

"Mind opening and comprehensive overview of the climate change challenge, UN commitments, process and how to make carbon real in our everyday lives and business."

Michael Wrait

CEO, United Petroleum International Holdings
