

# COMBINATION PROGRAMMES SAVINGS

---

For executives who want to accelerate and extend their depth and breadth of learning, NUS is offering the opportunity to enjoy significant savings of **S\$2,000** by combining any of the following two programmes (terms and conditions apply).

To take advantage of this opportunity, please check with our programme advisors.

## Strategic Management in Disruptive Times

Master the art of strategic analysis. This programme is designed to help you expand your strategic mindset, acquire the skills needed to gain stakeholder buy-in, and translate strategy into value-driven decisions. Learn to tackle strategic initiatives, transform operating models and translate strategy into value.

**For:** Experienced senior managers responsible for strategic decisions or who are moving into significant leadership positions.

**Duration:** 5 Days

---

## Leadership Development Programme

Become a great leader. Through robust leadership frameworks and exercises, you will gain insight into the mindset of high performance leaders, and learn to tap into your own strengths to influence and lead with impact. You will explore different facets of leadership, such as how to inspire and motivate teams, build commitment and manage resistance to change.

**For:** Senior executives who need to take their leadership skills to the next level.

**Duration:** 5 Days

---

## Driving Strategic Innovation

Are you leveraging new business models, and ready to disrupt industries and expand your markets? This programme helps you rediscover and respond to opportunities and challenges of strategic innovation.

**For:** Leaders, senior managers and functional heads with responsibilities for developing, driving, or leading strategic innovations in their organizations.

**Duration:** 5 Days

---

## General Management Programme

Make a smooth transition into general management. Specially designed for the Asian business context, this programme offers problem-solving toolkits for functional areas such as corporate strategy, marketing, human resources, finance, accounting and operations. Leveraging a powerful suite of tools, learn how to sharpen your analytical skills and make more effective business decisions.

**For:** Functional leaders or managers making the transition into general management roles.

**Duration:** 10 Days

## Climate Change and Sustainability: Leveraging Carbon Market Initiatives for Business

Sustainability and climate change are now issues that are moving beyond corporate lip service into real world business costs, challenges, and opportunities. This program breaks down the issues, and will help participants to understand and to take advantage of climate change opportunities today, and in the near future.

**For:** Chief sustainability officers and Chief financial officers (for ESG reporting), Procurement professionals (of VCCs and related products), Private equity and other finance professionals (looking to invest in VCCs), Lawyers, accountants and other service professionals focusing on Environment, Social and Governance issues (ESG), Public policymakers (to understand voluntary markets and possible overlaps with compulsory markets).

**Duration:** 3 Days

### Terms & Conditions

- Combination benefit is applicable only to combinations with executive programmes listed above.
- Combination programmes must be confirmed and paid up in one transaction, and both programmes must be completed within 12 months.
- Upon enrolment, cancellations, postponements or transfers are not permitted.
- Combination benefit cannot be used in conjunction with other savings or benefits.
- NUS reserves the right to postpone or cancel a programme by giving at least 21 days' notice. Should any of the enrolled programmes be cancelled, we will refund the respective course fees after a \$1,000 discount is applied to the affected programme.
